

CANDIDATE DIRECT

GAIN A COMPETITIVE EDGE ON HIRING.

As Easy as Click. Clear. Complete.

A background check is the final step that separates you, the employer, from hiring the best candidates for the job. The clock is ticking when it comes to the home stretch of hiring, and you don't want to lose the momentum of getting them on board. We get it, and that's why we developed the Candidate Direct portal.

You deserve a platform that provides a seamless, fast, and more secure way for potential new hires to complete a background check request. Candidate Direct gives your company a competitive edge throughout the candidate's process and help them start their dream jobs faster.

FOR EMPLOYERS

When you're hiring new candidates, you need everything to be fast and smooth-sailing. Background checks should be the same! Candidate Direct helps:

Accelerate your hiring process. Initiate a background screen, send a link, done. Candidate Direct is that easy to use. The seamless process makes it quick for you to start, and easy for the candidates to complete, allowing you free up your time.

Stay up-to-date on compliance laws. With our innovative built-in compliance engine, required candidate-facing and state-specific legal forms can be customized in compliance with FCRA laws. Forms are automatically presented to the candidate to sign and save, reducing completion time, and shortening the hiring cycle.

Customize to keep your branding. Asurint offers customizable logo branding for the Candidate Direct platform so your company's name is first and foremost when a candidate is filling out requested information.

FOR CANDIDATES

Your candidates' needs are important when faced with a background check request. This process should be easy-to-use from start to finish. Leave a great first impression on your candidates with Candidate Direct with:

Mobile-friendly design. Candidate Direct's 100% responsive design allows candidates to access and submit information not only from a desktop computer, but smartphones and tablet devices too.

Less room for user error. When completing personal information, you want it entered correctly the first time. Candidate Direct's integration with the Google Maps API helps autofill important address information for candidates, avoiding unnecessary typos or incorrect location information.

Help every step of the way. Background checks can be nerve-wracking. If your candidates ever have questions, we'll be there. An Asurint support representative is available to them every step of the way.

Asurint is innovating the background screening industry. Our powerful, customizable technology—backed by subject matter experts and personalized assistance—helps employers hire the right candidates every time, and faster than ever before.
